

We invite you to  
Trondheim, Norway  
for the  
**12<sup>th</sup> World Conference  
of Gerontechnology**

**May 18-20, 2020**

*The World Conference of Gerontechnology is the world's largest gathering of scholars, researchers, experts and practitioners in the field of Gerontechnology, providing a variety of opportunities for networking, keynote speeches, symposia, paper sessions, displays of leading edge technologies, and GeronTechno platform.*

## International Society for Gerontechnology

---

*Designing technology and environments for independent living and social participation of older persons in good health, comfort and safety*

---

[www.gerontechnology.org](http://www.gerontechnology.org)

## ISG OBJECTIVES

The basic objectives of the Society, which is a non-profit organization, are:

- ◆ To promote cultural and scientific, international exchanges between researchers and engineers of all disciplines, designers and architects, related industries, organizations and professionals in the field of comfort, welfare and health for the ageing and aged
- ◆ To encourage the creation of international research networks as well as international experiments of applied nature, in order to reinforce, by a wider dissemination of information, international potentialities in gerontechnology and to participate in their assessment
- ◆ To contribute to the promotion of international programs in gerontechnology
- ◆ To encourage the creation of research networks as well as networks of professionals, in order to reinforce, by a wider dissemination the participation in specific educational training courses, for engineers, vocational professionals, as well as for administrators and industrial management
- ◆ To cooperate closely with all similar international organizations and with all national bodies, governmental and non-governmental, concerned with gerontechnology
- ◆ To involve the older citizen in all relevant activities
